

17-POSITION ADJUSTABLE BEDS

Traditional residence hall rooms feature 17-position adjustable beds with at least one guardrail. These beds allow for 17 levels of adjustment for height. Beds are set at the default height upon move in. Rooms with differently configured beds are noted on individual residence hall pages.

DEFAULT HEIGHT
Minimum of 52" of clearance under the bed with a mattress height of approximately 62" (some bed frames allow up to 57.75" of clearance with a mattress height of 67")
