ELIGIBILITY

Section: Assignments

Policy: Undergraduate students, including those with a spouse/partner and/or dependents, registering for housing must be admitted, enrolled or eligible to register in order to be eligible for University Housing. Graduate, professional and medical partnership students, registering for housing may have a status of applicant, admitted, enrolled or eligible to register.

Purpose: The purpose of this policy is to determine the requirements for eligibility for residence in University Housing facilities.

Scope: This policy applies to all students requesting or living in University Housing’s facilities on campus.

Procedure:

I. Undergraduate students can register for housing once they have been officially admitted to the university. Graduate and professional students can register when they have applied. Students register by logging in to The Dawg House online at housing.uga.edu. Typically, the online registration is activated October 1 for spring semester undergraduate and graduate applicants. Online registration opens the Monday following admissions early action decisions for all first-year applicants. University Village (UV) and Health Sciences Campus (HSC) townhomes registration for the upcoming fall opens in December.

II. In order to be eligible to live in on campus, undergraduate students are required to be enrolled for a minimum of 12 semester hours and graduate or professional students for a minimum of nine semester hours during the fall and spring semesters. Academic program-related research is also considered in determining eligibility.

III. Students may be enrolled for fewer than the minimum number of credit hours with approval from the associate director for assignments and contracts.

IV. During the summer, students must be enrolled in at least one course for each summer session in which they reside in the summer school residence hall(s). Summer enrollment is not required in the 11.5-month halls of East Campus Village or for HSC Townhomes and University Village.
