BICYCLES, TRANSPORTING DEVICES, MOTORIZED BICYCLES and SCOOTERS

Section: Residence Halls – All Halls

Policy: In order to provide safe living environments, certain guidelines have been established for proper bicycle, transporting devices, motorized bicycles, and scooter storage.

Purpose: The purpose of this policy is to provide clear and safe guidelines for transportation device use and storage in and around residential facilities.

Scope: This policy applies to staff, residents, visitors and guests of University Housing.

Procedure:
I. Bicycles and Transporting Devices
   A. Non-motorized bicycles may only be stored in student rooms, bicycle storage facilities or on bike racks and as long as long as storage is not impeding an egress.
   B. No one may operate or store bicycles in hallways, stairwells or any public area inside the halls. In addition, bicycles should not be attached to railings, trees or other exterior locations that obstruct access to stairways, sidewalks or entrances.
   C. Bicycles left unattended within residence halls, other than in designated areas, will be removed and subject to the Abandoned Property Policy. Any bicycle secured to an unapproved location inside or outside of the residence halls, will be removed and subject to the Abandoned Property Policy.
   D. Transporting devices such as hoverboards and Segways may be stored in student rooms, but may not be operated within residence halls.

II. Motorized Bicycle/Scooters/Motorcycles/Mopeds
   A. Motorized vehicles, including scooters, mopeds, motorcycles or any item with a combustible engine are not permitted inside residence halls due to fire safety concerns. In addition, these vehicles should not be parked near or against a building.
   B. Motorized bicycles/scooters found parked in a non-designated area may be towed at the owner’s expense.
   C. Motorized vehicles found inside the residence halls will be removed immediately and the resident subject to documentation through the conduct process.
   D. Residents who need scooters and/or electric wheelchairs are a medical necessity, they must be registered through the Disability Resource Center.
